Database: LexusNexus Academic

Reviewed by P.F., Public Affairs Major/Communications Minor, Sophomore as of 9/22/2016

Why do I like using LexusNexus Academic?

I like using LexusNexus Academic because it is such a huge database that it covers topics all the way from global news to legal cases and even information on some 80 million companies. If you need information odds are this absolute behemoth of a database can help you find what you are looking for.

How have I used LexusNexus Academic?

I used the LexusNexus Academic database to do research on the 2016 presidential campaign, and much to my surprise the database not only had over 1600 relevant results, but it also had results from as recent as a day ago from the time of this review. That shows just how relevant these results can be.

How can I use the LexusNexus Academic Database?

I could use the LexusNexus Academic Database to stay up to date with current events if i so wanted to do so, that's just how much work goes into maintaining this database. Besides this it has an interface that is as easy to use as google’s, and that’s saying something.
