Database: Vault
Reviewed by A.F., Operations Management Major/ Information Technology & Social Responsibility Minor, Senior on 9/21/2016

Why do I like Vault?
I like using Vault because it gives me career information about industries and individual companies all in one database. I can easily find career paths, career advice, internships and school reviews to help me make career decisions. Vault’s database is also easy to navigate allow users to create a profile to gain exclusive content from anywhere and anytime.

How have I used Vault?
I have used this database to research the companies who will be attending the Undergraduate Career Fair. Vault allowed me to have all the information for me to fully understand the ins and outs of each company. I also used their guides to further help me pass the interview process and understand case interviews.

How can I use Vault?
I can use Vault to apply to internships as well as full time job opportunities. They also have links to blogs relating to different industries as well as social media pages linked to the company overview for students to stay up to date and informed about the companies’ issues.
